

Atexxo Manufacturing
Specialist in ATEX and IECEx Equipment

Explosion Proof ATEX Zone 2 Intrinsically Safe iPhone 8 (Plus)

Explosion Safety	CE Ex II 3G ; Ex ic IIC T4 Gc
------------------	-------------------------------

All new from Atexxo Manufacturing B.V., the Apple iPhone 8 now suitable for use in hazardous locations. The explosion proof iPhones are originally manufactured by Apple, then converted and certified according to the ATEX directives by Atexxo Manufacturing B.V. This makes the phones suitable for safe use in gas/vapor Zone 2 hazardous locations. ATEX Zone 2 is the European equivalent for US, NEC Class 1 Division 2 equipment. (C1D2)

Compliance with ATEX / EX regulations is achieved by modification of the casing together with the intrinsically safe electrical circuit, which makes the phones suitable for safe use in hazardous locations. All features of the original product are preserved. Even the fingerprint scanner can be used safely at hazardous locations.

The ATEX iPhone 8 comes with a black case finish and is available for iPhone 8 and iPhone 8 Plus in the 64Gb and 256Gb versions. Besides safe use as a cell phone for telecommunicating, both versions are excellent for intrinsically safe video or photo camera use with WiFi connection.

Cost effective ATEX Zone 2 iPhones 8

Benefits:

- Ultra slim design
- Latest models, ATEX Certified
- Quick delivery
- Intrinsically Safe Design
- ATEX Zone 2 (Zone 22 on request)
- World Wide Delivery

Applications:

- Petro (chemical) plants
- Offshore environments
- **Intrinsically safe camera**
- Storage of hazardous goods
- Harsh environments
