All new from Atexxo Manufacturing, the Apple iPhone XS (Max) now suitable for use in hazardous locations. The explosion proof iPhones XS are originally manufactured by Apple than converted and certified according to the ATEX directives by Atexxo Manufacturing B.V. This makes the phones suited for safe use in gas/vapor Zone 2 hazardous locations. ATEX Zone 2 is the European equivalent for US, NEC Class 1 Division 2 equipment. (C1D2)

Compliance with ATEX / EX regulations is achieved by modification of the casing together with the intrinsically safe electrical circuit, which makes the iPhones suitable for safe use in hazardous locations. All features of the original product are preserved, the phone allows the use of digital dual sim.

The ATEX iPhone XS comes with a black case finish and is available for iphone XR and iphone XS / XS-Max both in 64Gb, 256Gb and 512Gb versions. Beside safe use as a cell phone for telecommunicating, both versions are excellent for use as intrinsically safe video or photo camera with wifi connection. Cost effective ATEX Zone 2 iPhones XS (Max)

**Benefits:**
- Digital DUAL SIM
- Latest models, ATEX Certified.
- Self Sim-Card Installation
- Intrinsically Safe Design
- ATEX Zone 2 (zone 22 on request)
- World Wide Delivery

**Applications:**
- Petro (chemical) plants
- Offshore environments
- *Intrinsically safe camera*
- Storage of hazardous goods
- Harsh environments
Conversion of multiple brands possible
